

Provider Notice

To: All Providers

From: Dan Eisenhauer, Director of Operations

Date: May 31, 2022

Subject: AD 22 104 Recipient Language by County

PerformCare is reissuing our recipient language data with additional resources and information that will assist providers with understanding the broader needs of the communities we serve by providing data about the languages spoken by the general population in our counties. In addition, we are providing a link to data that providers can use to explore language needs by census tract for a more detailed analysis of the communities we serve. As PerformCare continues to focus on whole person and person centered care for our Members, we recognize the importance of understanding and responding to language factors that impact our Members ability to access and participate in behavioral health treatment in addition to diversity, equity, and inclusion initiative.

PerformCare is sharing Membership data that includes the primary language spoken by our Members. This data is reported to PerformCare by DHS on Member eligibility files and is based on Member report to their County Assistance Office. PerformCare corrects Member's language data when errors are found. This information assists providers in understanding the prevalence of non-English speaking Members by County in order that providers may better anticipate and plan to meet Members treatment needs when the Member's primary language is not English. Also Member specific language information is available to providers via the Navinet Member Eligibility and Benefits search function.

Language needs should not be a reason to decline a referral or a barrier to treatment. PerformCare covers part of the cost for interpreter service to assist providers as described in PerformCare Policy: Interpreter Costs in Service Delivery, Policy Number: PR-027.

Please review the PerformCare Language Resources training form January 28, 2022 posted here: https://pa.performcare.org/providers/training-education/performcare-presentations.aspx

Please see attachments County Level Language Data and PerformCare Member Language data sorted by County. If you have any questions about this notice, please contact your Account Executive.
