

**UPDATED ONLY FOR LOGO AND BRANDING****Provider Notice**

**To:** Drug and Alcohol, Mental Health Outpatient, BHRS, FBHMS Network Providers  
**From:** Donald W. Stiffler, M.S., Provider Relations Manager  
**Date:** July 13, 2010  
**Subject:** AD 10 109 Claims Submission and Place Of Service 03 (POS 03) for Services provided in Schools

---

Please be aware that effective August 15, 2010, there is a new Place of Service Code (POS Code) to identify children's services provided in the school setting. POS Code 03 will be used when billing for any BHRS, FBMH or Mental Health and Substance Abuse Outpatient clinic service provided in a school setting. Any BHR, FBMH or Mental Health and Substance Abuse Outpatient clinic service performed in a school setting that occurs on or after August 15, 2010 must be billed using POS 03 rather than POS 99 when submitting claims to PerformCare. Services performed in the community (not a school setting) are not affected and the POS on those claims should remain POS 99.

This change applies to the following outpatient provider types:

11/112 (Mental Health Outpatient Practitioner)  
11/127 (Drug and Alcohol Licensed Outpatient Services)  
08/184 (Drug and Alcohol Licensed Outpatient Services)  
08/110 (Mental Health Licensed Outpatient Services)  
11/110 (Mental Health Licensed Outpatient Services)  
08/115 (Family Based Mental Health Services)  
All combinations permitting BHRS

This is applicable to all claims submissions, both paper and electronic. Please assure that this change is brought to the attention of the each providers billing department. Please refer to the attached list which indicates the services that should be billed using POS 03 when or if performed in the school setting. This list is not intended to imply that any provider is required to deliver services in school. If you have any questions, please do not hesitate to contact your Provider relations representative at 1-888-700-7370.
