

Provider Notice

To: TMCA Providers
From: PerformCare
Date: March 20, 2020
Subject: Alternative Provider Funding

PerformCare would like to assure Providers that we are working in conjunction with our Primary Contractors to ensure that you remain financially sound during this challenging time associated with the COVID-19 emergency.

TMCA and PerformCare is in the process of test validating a payment methodology to adjust rates to cover expenses of core community based ambulatory providers whose primary source of revenue is Behavioral Health Choices and are a critical need to the community to the extent that circumstances will permit. This alternative funding will assist providers in supporting their agency and staff by allowing the provider to receive payment when the delivery of billable services is unsure or greatly reduced.

Requirements of this alternative funding is currently being finalized by TMCA and PerformCare. Details will continue to be provided as the process evolves.

If anyone has any questions, please contact your Account Executive or TMCA.
