Provider Notice

To:	**All PerformCare Network Providers**
From:	**Scott Daubert, PhD, VP Operations**
Date:	**Revised March 1, 2019**
	(Revised December 1, 2017) (originally September 30, 2017)
Subject:	**AD 17 104 Ordering, Referring, and Prescribing Providers**

3/1/19 – Subsequent to the issuance of our original Provider Notice AD 17 104, the Office of Mental Health and Substance Abuse Services (OMHSAS) issued further clarification on how Behavioral Health Managed Care Organizations (BH-MCOs) were to submit ORP information on encounters to the Commonwealth. These behavioral health encounter requirements are listed in Table A below. In some instances, the 837 segments differ from those originally chosen by PerformCare. Effective the date of this notice, providers can submit ORP information in either 837 location – either as originally defined by PerformCare (see Table 3 in original notice below), OR in the 2420E segment defined by OMHSAS for certain encounters (see Table A). In addition, our original Provider Notice AD 17 104 directed providers to submit 3 related ORP fields: the ORP Provider Name, ORP NPI #, and ORP MAID #. Also effective as of the date of this notice, the ORP MAID # is no longer mandatory, and is considered an optional field. The intent of these changes is to provide additional flexibility for providers to submit ORP information more consistently across BH-MCO's and Medical Assistance fee for service claims.

[1]Please refer to PerformCare institutional claim requirements in Tables 2 & 3 in original Provider Notice below.

[2]PerformCare is currently unable to accept service level segments on claims for Supervising/Attending Physician. As originally instructed, providers would need to use **2310D claim level segment** for these PerformCare submissions. We are reviewing for future modification.

_____

12/1/17 – The following clarification was received from the PA Department of Human Services (DHS) regarding the implementation of behavioral health claims edits in HealthChoices for Ordering, Referring, and Prescribing (ORP) Providers.   Specifically, the new direction from DHS to the Behavioral Health Managed Care Organizations (BH-MCO) is that if a network provider submits a claim to a BH-MCO and edits set identifying that the ORP is not enrolled in Medical Assistance (MA) the claim <u>can be paid</u>. However, if the non-MA enrolled ORP has a high volume of claims, the BH-MCO should work with the network provider and non-MA enrolled ORP to have them enroll in MA.

In response, PerformCare will not be denying claims submitted where the ORP listed is not enrolled in Medical Assistance, but instead will monitor paid claims for non-MA enrolled ORP providers. Nevertheless, the claims submission process identifying the ORP providers remains as outlined below in our original Provider Notice dated 9/30/17. For all of the 9-digit MA provider number fields, if the ORP provider is non-MA enrolled, or the network provider submitting claims cannot otherwise obtain the 9-digit MA number from the ORP provider, then "999999999" can be entered as the default for those fields and submitted.

OMHSAS Policy Clarification DRAFT: Providers ordering, referring, or
prescribing services for Medical Assistance (MA) beneficiaries in HealthChoices
Behavioral Health, HealthChoices and Fee-for-Service (FFS) Programs.

Background:

42 CFR 455.410 - *Enrollment and screening of providers* requires providers who order, refer, and prescribe services to Medicaid beneficiaries, to enroll in the Medicaid program. This requirement is also found in the definition of "Provider" in 42 CFR §438.2 Definitions as amended in the Medicaid Managed Care Final Rule published May 6, 2016 (Federal Register Vol. 81, No. 88).
Section 5005(b)(2) of the 21st Century Cures Act applies the requirement to Managed Care Organizations (MCOs) and requires compliance by January 1, 2018.

Currently in the PA Medicaid Fee-for-Service (FFS) program, the NPI of the provider who ordered, referred, or prescribed the service must be reported on the claim. In the MA FFS Program, if the NPI reported on the claim does not match the NPI of an MA enrolled provider, the claim will be denied and the provider will not be paid for the service. Claims submitted through the MA Fee-for-Service program with an ordering, referring or prescribing provider that is not enrolled in MA started denying on April 3, 2017. Managed care organizations (MCOs) in the HealthChoices program must also come into compliance. MCOs will be implementing this requirement as their systems are adjusted no later than January 1, 2018.
PerformCare intends to comply with the above requirements for dates of service on or after January 1, 2018. At this time, we have only been able to review a draft policy clarification from the Office of Mental Health and Substance Abuse Services (OMHSAS) and are awaiting more formal state direction. Nevertheless, this will be a significant change to both MCO and provider billing/claims systems. We are issuing this notice as preliminary guidance to all providers. Please note that further changes may occur pending the issuance of final OMHSAS guidance.
The following is a list of the BH Provider Types and Specialties that we expect to be impacted by this new requirement:

On the following pages, we list further billing detail on the anticipated new requirements related to reporting of the Ordering, Rendering, and Prescribing Providers. **Again, please note that this is preliminary guidance to all providers, pending the issuance of final OMHSAS guidance, making it subject to change.**

Nevertheless, providers can immediately begin to take the following steps:

1. Evaluate the MA enrollment status of any employed professionals who would order, render or prescribe MA services. ***All individual providers who order, refer, or prescribe services delivered to MA-beneficiaries must be enrolled in the MA program.*** This includes:
Individual **practitioners**, including but not necessarily limited to the following: Physicians (including Psychiatrists), Certified Nurse Practitioners (CRNPs), Physician Assistants (PAs) and Licensed Psychologists, who order, refer, prescribe or provide services for MA beneficiaries.

2. Behavioral health providers of ordered, referred, or prescribed (ORP) services such as, Psychiatric Rehabilitation (PRS), Peer Specialist Services (PSS), Family Based Mental Health Services (FBMHS), Behavioral Health Rehabilitative Services (BHRS) for children, Community Residential Rehab (CRR) Host Homes, and accredited and non-accredited Residential Treatment Facilities (RTF), must report the MA and NPI numbers of an MA enrolled ordering, referring or prescribing provider on the claim to PerformCare as of DOS 1/1/18 (see Table 2 below). Evaluate your current prescribers to make sure they are MA-enrolled and obtain / catalogue their MA number and NPI number for future claims use.

   As billing providers, you may check the Provider Portal Lookup Function in PROMISe™ to determine if your prescribing providers are enrolled in the MA program. The Provider Portal Lookup Function can be accessed after a MA enrolled provider has logged into PROMISe™. You can access this at the following link:
https://promise.dpw.state.pa.us/portal/Default.aspx?alias=promise.dpw.state.pa.us/portal/provider

3. Review the anticipated billing / claims requirements outlined in Table 2 below for your applicable services and begin to prepare for the needed system changes
