

## Provider Notice

To: **All Providers**  
From: **PerformCare**  
Date: **March 12, 2025**  
Subject: **AD 25 106: Trauma Informed Care training resources**

---

As part of our ongoing efforts to share Trauma Informed Care training resources with our provider network, PerformCare would like to share opportunities through Highmark Caring Place. Information on these training opportunities can be found at <https://www.highmarkcaringplace.com/cp2/index.shtml>.

Trainings offered are related to Trauma Informed Care. The topics pertain to children, families, and child serving systems (schools, etc.). They are specific to topics surrounding grief and support for those experiencing loss. Trainings are one hour and thirty minutes in length and in webinar format.

For information on free continuing education information for taking these trainings, go to [https://www.highmark and are caringplace.com/cp2/events/webinarsCEUs.shtml](https://www.highmarkandarecaringplace.com/cp2/events/webinarsCEUs.shtml). Credits for these trainings are offered through a collaboration with Allegheny Health Network (AHN) <https://cme.ahn.org/>. They offer credits for both psychologists and social workers. The seminars can be accessed by clicking on Events > Grief Talks> Caring Place Webinars. The most recent webinars are listed on the page. Once a webinar is completed, a free account must be created on Allegheny Health Network's Continuing Medical Education department. Follow the registration link at the bottom of the page. PerformCare is hopeful that the resources for The Highmark Caring Place will continue to add to the Trauma Informed Care toolkits of our provider network.
