

Provider Notice

To: PerformCare Psychiatrists and Psychologists
From: PerformCare
Date: February 3, 2025
Subject: MH 25 101 Revised Attestation Requirements and Form

PerformCare has identified potential concerns with discrepancies when PerformCare staff are reviewing supporting documentation for Psychiatric and Psychological attestation requests for supervisees educational requirements and resumes. Requirements for Psychiatric and Psychological Attestations were communicated via Notice MH 23-108.

This notice updates the requirements and serves to notify impacted providers of revised attestation forms. Effective with attestations submitted on or after March 3, 2025, please include a copy of the primary source verification of the highest level of education for each individual employed and who provides services under the supervision of a psychiatrist or psychologist, in addition to the person's resume.

Having access to the primary source verification of the supervisee's education will allow PerformCare staff to complete their due diligence in reviewing the applicants' qualifications.

If you have any questions about this notice, please contact your Account Executive.
