PerformCare previously notified providers that:

- For providers who are billing usual and customary rates that equal or exceed the ASAM minimum we will reprocess claims to pay at the ASAM minimum rate after our system is properly configured.
- For providers who are billing at rates less than the ASAM minimum rate, we encourage those Providers to bill PerformCare using the new ASAM minimum rate as soon as possible.

PerformCare’s system is now updated with ASAM minimum rates in place for all levels of care.

Effective May, 18 2022 PerformCare can accept corrected claims from any provider that needs to resubmit claims at the ASAM minimum rate for any service on or after 1/1/2022 when the provider previously submitted claims with a rate below the ASAM minimum rate.

PerformCare will not be issuing individual provider rate notices. All PHP providers determined to be substantially aligned by DDAP and all IOP providers have the appropriate ASAM minimum rate configured in our system. And all SU Residential providers whose XYZ rate was below the ASAM minimum have had their rates increased to the ASAM minimum rates effective 1/1/2022.

Please check your EOBs to assure that you are being paid at the correct rate.
