Subject: SUD 24 101 SUD Discharge Planning Template

PerformCare developed a best practice discharge planning template and check list for Substance Use Disorder Residential Providers and presented an overview for Providers. This notice serves as a reminder that the discharge planning template is an effective planning tool to be used and shared with Members as part of active discharge planning.

The discharge check list serves as a guide to implement the discharge planning template to assure Member participation in after care planning. Providers may adapt the template as needed.
