

Care Coordination 2025 consolidated results:

When a PerformCare Member is first admitted to treatment, the facility receives timely (within 24 hours of the request) clinical information about the Member from the referral source

How often do you contact other providers (e.g., outpatient, Targeted Case Managers, or in-home service providers) involved in the Member's care to coordinate care or share discharge information?

Do the majority of other providers, such as outpatient, Targeted Case Managers, in-home service, and Residential Treatment Facilities, respond to your outreaches within two business days?
