As you know, cigarette smoking harms nearly every organ of the body, causes many diseases, reduces health in general, and is a particularly serious issue for persons with serious and persistent mental illness and/or substance use disorders. Pennsylvania has set out to implement a statewide comprehensive tobacco-use prevention program. Each PH-MCO and BH-MCO has also developed work plans to assist in this statewide effort. State-level initiatives include a telephone quitline, efforts to counter tobacco marketing, surveillance of tobacco sales to minors, and assessment and treatment of tobacco addiction. For further information, please refer to the PA Department of Health materials at:
